Nairobi - Kenya

PROFILE

- ✓ MARITAL STATUS - SINGLE
- ✓ NATIONALITY - KENYAN

LANGUAGE

- ✓ ENGLISH
- ✓ KISWAHILI

SKILLS

PROGRAMMING LANGUAGES:

- ✓ C/C++
- ✓ JAVA
- ✓ PYTHON
- ✓ DART

WEB DEVELOPMENT:

- ✓ HTML+CSS
- ✓ JavaScript
- ✓ React + TailwindCSS+TypeScript

OPERATING SYSTEMS:

- ✓ WINDOWS
- ✓ LINUX

CYBERSECURITY & SOFT SKILLS:

- ✓ Penetration Testing
- ✓ Network Security
- ✓ Ethical Hacking

SUMMARY

A motivated and committed Computer Science undergraduate at Daystar University, specializing in cybersecurity and software development. Proficient in Python, C, C++, and Java, with practical experience in penetration testing, SIEM tools, and secure system design. I have applied my knowledge beyond the classroom by developing the **Smart IT Resource Management System (SIRMS)** during my attachment at Kenya Power, addressing real organizational challenges in asset management and security. My academic journey has been complemented by consistent leadership roles—as a class representative, Red Cross Chairperson, and team leader at KPLC—demonstrating resilience, adaptability, and service. Passionate about leveraging technology to solve Africa's pressing security challenges, I aim to advance my expertise through post graduate studies in cybersecurity and contribute to building resilient, secure, and innovative digital ecosystems across the continent. EDUCATION

2022 -NOW — UNIVERSITY

- Bachelor of Science in Applied Computer Science [Ongoing]
- Daystar University Main Campus, Athi River, Kenya
- Expected Graduation: [2026]
- Current GPA: **[3.24/4.00]**
- Relevant Coursework: Cybersecurity, Data Structures, Software Engineering, Networks.
- **Class Representative** – providing academic and administrative leadership.

2018 - 2022 — HIGH-SCHOOL

- Kenya Certificate of Secondary Education (KCSE)
- Nairobi School, Nairobi, Kenya
- Overall Grade: B+
- Points: 72/84

2013 - 2017 — PRIMARY SCHOOL

- Kenya Certificate of Primary Education (KCPE) (2017)
- Nyabondo Boys Boarding Primary School, Kisumu, Kenya
- Overall Score: 404/500

CORE STRENGTH

- Strong analytical and problem-solving skills, consistently identifying innovative solutions to complex challenges.
- Excellent communication and interpersonal abilities, fostering collaboration with cross-functional teams and stakeholders.
- Detail-oriented and highly organized, effectively managing multiple priorities and tasks.
- Proficient in programming languages including Python, Java, and C/C++, with a deep understanding of the software development lifecycle and cybersecurity principles such as encryption, network security, and ethical hacking.

SELECTED ARCHIVEMENTS

- Led a team of 8 as the Red Cross Club Chairperson in Nairobi School, reaching the national-level in the first aid competition.
- Participated in regional-level Mathematics' Club competition during high school.
- Demonstrated leadership as a student leader for 5 years (Class 4-8) in [Nyabondo Boys' Boarding Primary School].

HOBBIES

- **Coding** – Passionate about developing secure and efficient software solutions.
- **Researching** – Continuously exploring advancements in cybersecurity, encryption, and ethical hacking.
- **Reading** – Staying updated on emerging technologies, security threats, and industry trends.
- **Travelling** – Enjoy discovering new places and cultures, broadening my perspective.
- **Swimming** – A refreshing way to stay active and maintain a balanced lifestyle.

EXPERIENCE

Class Mini-Project | Daystar University | Nairobi, Kenya | March-April 2023

- Successfully completed a class mini-project, demonstrating exceptional skills and achieving a high grade [90%] for the project.
- Collaborated with classmates to develop and implement a solution, showcasing teamwork and effective communication.
- Applied technical knowledge and problem-solving abilities to overcome challenges and deliver a successful project outcome.

Self-Initiated Cybersecurity Vulnerability Assessment | Nairobi, Kenya | August-September 2024

- Conducted **penetration testing** on a local network to identify security vulnerabilities and recommend mitigations.
- Exploited common security flaws such as **SQL injection, XSS, and broken authentication**, improving hands-on cybersecurity skills.
- Documented findings and proposed security enhancements, demonstrating strong analytical and reporting abilities.

Kenya Power and Lighting Company (KPLC) – ICT & Cybersecurity Department| May - July *(2025)*
ICT & Cybersecurity Attaché | Team Leader for Attaches'

- Led a team of 24 attaches', ensuring coordination and peer mentorship.
- Conducted **penetration testing** on applications (FacilityApp, MyPower, APIs).
- Designed and developed **SIRMS**, an asset management system supporting asset tracking, licenses, and offboarding workflows.
- Gained experience with **SIEM (FortiSIEM, Microsoft Sentinel)**, PAM, IDS/IPS, database security, and SOC operations.
- Delivered reports and presentations to supervisors, demonstrating technical and communication skills.
